It has been said that a picture paints a thousand words. With that in mind, this edition of the MCV X-Ray is simply a picture book of the "signs and symptoms" of the 1990 MCV school year. Each picture has a story of its own to tell.

Investing in the Future.

...Patterson's history of progress

Patterson Dental Company grew from a proud heritage begun in 1877, when young M. F. Patterson opened a dental supply counter in his Milwaukee drug store. Soon thereafter, he relocated the company to the growing Minneapolis area, where it is headquartered today.

Patterson's history is characterized by progressive company growth. By the 1960's the company had expanded to 36 branches located primarily in the Midwest, Southeast and West. Since then, Patterson has continued to grow and today employs more than 1500 people in over 90 locations...creating a national distribution network united by advanced computer technology.

...growth for tomorrow

Patterson Dental Company is committed to the future of dentistry...we're planning now for the dentistry of tomorrow.

Toward that goal, we've invested in management technology and human resources: a national computer network, inventory and management systems, office planning and design, technical repair service, recruitment and training, and professional education programs for dentists and staff. Additionally, Patterson has created a centralized institutional bidding department to handle the specialized needs of dental facilities in Veterans' Administration hospitals, military bases, dental schools, and government clinics.

We strive to stay at the forefront of the dental industry, meeting the complex needs of tomorrow with innovations that begin today.
